16.30.3.15 ARCHITECT EMERITUS: Upon written request to the board, any architect registered in New Mexico may renew his or her registration as an architect emeritus for a biennial fee of twenty dollars ($20.00) if the following requirements are met.
A. The registrant shall be 60 years of age or older and retired from the practice of architecture on the date of his or her registration renewal. Retired means that the architect no longer practices architecture in New Mexico and no longer stamps and certifies construction documents with his or her seal for projects located in New Mexico that are subject to the jurisdiction of the board.
B. The registrant shall have 10 years of continuous registration as an architect, five years as a registered architect in New Mexico, unless practicing under a specific exemption authorized by law.
C. In the event an architect emeritus wishes to reinstate a registration to practice architecture, the board may require proof of proficiency and the fulfillment of additional requirements deemed necessary, such as providing proof of continuous architectural registration elsewhere with the registration in good standing. Reinstatement of the license following the request to terminate an architect emeritus status shall include completion of continuing education requirements per Subsection B of 16.30.3.12 NMAC.

16.30.3.16 DUPLICATE WALL CERTIFICATES: The board may, after consideration of a written request from a registrant outlining the circumstances supporting the request, authorize the issuance of a duplicate wall certificate of registration. The fee for supplying such a certificate shall be thirty-five dollars ($35).

16.30.3.17 DISPLAY OF A CERTIFICATE OF REGISTRATION: The board requires that each registrant shall display his or her certificate of registration in a conspicuous location in his or her primary place of business.

16.30.3.18 INDIVIDUAL SEAL AND DOCUMENT IDENTIFICATION:
A. Registration seal specifications: Each architect registered in the state of New Mexico shall secure a registration seal of the following design: The seal shall have two concentric circles with the outer circle measuring one and three-quarter inches in diameter and the inner circle being one and one-quarter inches in diameter. The upper portion of the annular space between the two circles shall bear the words “STATE OF NEW MEXICO” and the lower portion shall bear the words “REGISTERED ARCHITECT”. The space enclosed by the inner circle shall bear the name of the architect and his or her registration number. In no event shall the seal contain more than one name of an architect. By placement of a seal and signature on a drawing, an architect verifies that his or her registration is valid and that he or she is practicing in accordance with the Architectural Act, Sections 61-15-1 through 13 NMSA 1978 and these rules and regulations.

B. Use of registration seal:
   (1) Each original sheet of construction drawings and each cover sheet of specifications, submitted for permitting, and reports, prepared by or under the responsible charge of an individual architect, must bear the imprint of the seal with the signature of that architect and the date of the signature closely aligned to the seal. The name and address of the architect must also appear on the sealed page. A registrant may apply a seal, signature and date of signature by hand. A registrant may affix an electronically-generated seal, signature, and date of signature. An electronic signature may be utilized provided the registrant utilizes a secure method of affixation; the registrant does not authorize any other person to so affix; and the registrant and client have agreed to conduct transactions by electronic means. Drawings, reports or documents that are signed using an electronic signature shall employ an authentication
procedure to ensure the validity of the electronic signature. Signature must satisfy requirements defined in 16.30.1.7 NMAC.

(2) As provided in the Architectural Act, Subsection A of Section 61-15-7 NMSA 1978, all plans, specifications, plats and reports prepared by an architect or under the architect’s responsible charge shall be signed and sealed by that architect, including all plans and specifications prepared by the architect or under the architect’s responsible charge on work described in project exemptions, under Section 61-15-9 NMSA 1978.

(3) Placing of multiple architectural seals on plans, specifications or reports shall not be permitted. The architect-of-record must seal, sign and date all construction drawings, specifications, and reports prepared by or under the supervision of that architect. In doing so, the architect-of-record assumes full responsibility for these documents.

(4) Reviewing, or reviewing and correcting, technical submissions after they have been prepared by others does not constitute the exercise of responsible charge because the reviewer has neither control over nor detailed knowledge of the content of such submissions throughout their preparation. Any registered architect signing or sealing technical submissions not prepared by that architect but prepared under the architect’s responsible charge by persons not employed in the office where the architect is resident, shall maintain and make available to the board upon request for at least five years following such signing and sealing, adequate and complete records demonstrating the nature and extent of the architect’s control over and detailed knowledge of such technical submissions throughout their preparation. An exception is made for:

(a) architects who review, adapt, and seal prototypical projects provided that the project qualifies as a prototypical project meaning the original plans were designed by other architects, engineers or architects and engineers with the intent of being used in several diverse locations with local adaptations;

(b) a kit-of-parts that is a manufactured item and the New Mexico registered architect is not responsible for the components.

(5) Architectural and engineering seals are required for any subsequent and physically linked construction to a project which, when seen together with the original construction, would have required both seals.

(6) A legally applied seal and signature is a permanent part of construction documents and may not be removed for non-payment of fees or other civil action.

C. Assumption of projects:

(1) Sealed work: Prior to sealing, signing and dating work, a successor registered architect shall be required to notify the original architect, his successors, or assign, by certified letter to the last known address of the original registered architect, of the successor’s intention to use or reuse the original registered architect’s work. A successor registered architect must use his or her own title block, seal and signature and must remove the title block, seal and signature of the original architect before sealing, signing and dating any sealed construction drawings and specifications. The successor registered architect shall take full responsibility for the drawings as though they were the successor’s original product.
(2) Unsealed work: When an architect assumes responsibility of an incomplete project, the following evaluation must occur before the architect can be said to have exhibited responsible charge over the project:

(a) Program: the architect shall meet with the client to assure that the client’s needs are met.

(b) Codes: the architect shall assure that the project is in compliance with all federal, state, and local regulation.

(c) Coordination: the architect shall assure coordination with the other professionals in a project.

(d) Analysis: the architect shall assure the project meets all technical, aesthetic, and quality requirements and that site and environmental issues have been addressed.

(e) The architect of record who assumes the incomplete project shall be charged with keeping records of the project for five years.

D. Plan checking: Any authorized person checking documents for compliance with any applicable statutes, codes, ordinances, rules or regulations such as building codes, fire codes or zoning ordinances may “red-line” and list changes to meet such applicable statutes, codes, ordinances, rules and regulations, as this is not the practice of the profession. However, a person may not modify a professional document submitted for review unless that modification is supported by reference to an applicable code or standard. A non-registrant shall not modify, in any manner, a document embodying the discretion or judgment of a registrant without the express permission of the architect who is in responsible charge.

16.30.3.19 CHANGE OF ADDRESS: Registrants shall notify the board of a change of primary address within 30 days of a move.
