Introduction

The profession of architecture is one of the oldest and most respected in the world. The architect as the definer of our built environment bears an enormous responsibility for the comfort and security of our society.

The New Mexico Board of Examiners for Architects (NMBEA) is charged with the duty to “safeguard life, health, and property and to promote public welfare” by reviewing evidence of professional qualification of any person applying to practice architecture in this state. In addition, the agency has the duty to regulate the architectural profession and otherwise enforce the provisions of the New Mexico Architectural Act.

The Board is mandated to assure the citizens of New Mexico quality and safety in the professional design of the built environment. The examination and registration of architects, rule-making and the enforcement of the N.M. Architectural Act and the Board regulations are the means by which this responsibility is achieved.

The Board is an executive agency under the Office of the Governor. The Board is a licensing authority operating in accordance with the statutory requirements of the Uniform Licensing Act. The Board is an autonomous regulatory agency; it is not part of the state’s Regulation and Licensing Department. NM Board of Examiners for Architects operates entirely on the revenues it generates from application and registration fees. The Board is responsible for setting its own policies, procedures and regulations. All statutory changes and additions must be approved by the State Legislature.

The operations and duties were overseen by a Board consisting of seven members appointed by Governor Susana Martinez. Six of the Board members must be registered architects having ten or more years of experience in the profession, five years of which shall have been in responsible charge of architectural projects, and shall have been registered as architects in New Mexico for at least five years. One of six architects shall be in architectural education in an accredited college of architecture, and one of the six architects shall be from the public sector and not in private practice. The seventh member shall be a public member who is a voting member. The public member of the board shall not have been licensed as an architect, nor shall the public member have any significant financial interest, whether direct or indirect, in the occupation regulated.

Education is necessary for registrants to comply with registration standards (including continuing education); the education of the public in regards to architectural practice; the education of students and interns to bring awareness of what will be expected of them in fulfilling their requirements for registration; and the education of public officials as to the rules and regulations governing the practice of architecture in New Mexico. The various methods the Board uses to educate this wide spectrum of society will be explained further in this report.
In New Mexico there are basically two methods through which one may become a registered architect. Stated in the simplest form these are:

- Following the path of the student through obtaining an accredited professional practice degree; registering with the National Council of Architectural Registration Boards (NCARB) to be an intern; passing the national Architectural Registration Examination (ARE); completing the internship training requirements; and applying for licensure through the Board;
- After obtaining licensure in another state/jurisdiction, one can apply for a reciprocal registration through the NCARB certification program.

The first step for the student is to complete the necessary degree requirements. The Board, being a member board of the National Council of Architectural Registration Boards, follows the standards as set out in NCARB’s Education Guidelines.

After obtaining a professional degree from a program accredited by the National Architectural Accrediting Board, the individual must then satisfy National Council of Architectural Registration Boards (NCARB) standards of training. The Architectural Experience Program (AXP) is developed and administered by NCARB. Completion of the AXP is a requirement for initial registration. The AXP identifies the tasks that are essential for competent practice. The program is structured to prepare the individual to practice architecture independently upon initial registration.

Each jurisdiction, such as New Mexico, determines the requirements for taking the ARE. In New Mexico the requirements are:

- Obtain an accredited professional degree as specified in the NCARB Education Guidelines;
- Apply for the NCARB Architectural Experience Program;
- Apply for eligibility via NCARB to the New Mexico Board.

The ARE consists of six divisions, which are designed to test a candidate’s knowledge of a broad range of skills and applications. The ARE has been computerized and may be taken at testing centers throughout the U.S. A candidate must successfully pass all divisions before becoming a registered architect.

Reciprocal registration via NCARB certification is the method out-of-state architects use to become registered in New Mexico. Certificate holders notify NCARB of their wish to become registered in New Mexico and NCARB then sends on the individual’s certification documentation and any other required information to the Board. Applications for reciprocal registered are reviewed monthly by the Board’s Examination and Reciprocity Committee to ascertain that all requirements for New Mexico licensure
are met. If an applicant meets all requirements the Examination and Reciprocity Committee recommends approval of that applicant to the full Board at the next regularly scheduled Board meeting.

During the fiscal year the Board offered a Broadly Experienced Pathway to licensure. This pathway offered an individual who does not hold an NCARB certificate and is seeking registration through reciprocity as a broadly experienced architect must hold a current and valid registration issued by the licensing authority of another jurisdiction and have held such registration with no disciplinary action for at least five years. The broadly experienced category applicant shall return to the board a completed application, on a form prescribed by the board, along with other pertinent documents and the application fee. The board shall have the right to institute procedures for the broadly experienced architect process as it deems necessary. Each broadly experienced category applicant shall provide the board evidence of academic training and work experience directly related to architecture and demonstrating minimum competencies as described in 16.30.6 NMAC including, but not limited to, evidence of training or experience.

SERVICES NMBEA PROVIDES

Safeguarding life, health and property and promoting public welfare in the practice of architecture requires NMBEA to be involved in a wide spectrum of activities. As previously mentioned, a major focus for the Board encompasses all aspects of what is required to become a registered architect. And while that is certainly a major determinant in how staff and Board member time is used, as well as the main revenue provider for NMBEA, there are other activities that play a very important role in fulfilling NMBEA’s mission.

Enforcement

It is the responsibility of NMBEA to investigate and, if necessary, to prosecute any violations of the N.M. Architectural Act/Rules and Regulations. This includes alleged violations by registrants and non-registrants. Complaints reported to the NMBEA are subject to preliminary investigation by the NMBEA’s investigator. The Rules and Regulations Committee, through its Enforcement Subcommittee, then determines if further action is required. If necessary, the Board requests a Notice of Contemplated Action (NCA) to be issued against the respondent – a task done by the Assistant Attorney General designated as prosecutor for NMBEA. The matter might then move to a hearing before a Board-appointed Hearing Officer, or a Stipulated Agreement may be seen as the appropriate course of action in lieu of issuing a Notice of Contemplated Action or perhaps after an NCA is issued.

The results of a hearing might range from dismissal of the alleged violation(s) to revocation of a registrant’s license. A non-registrant may face a fine as provided for in the Uniform Licensing Act. While the Board does not hesitate to prosecute any valid violation of the N.M. Architectural Act, the general philosophy behind enforcement
involving less serious violations is to educate and rehabilitate rather than to simply prosecute and discipline.

In an effort to educate new registrants the Board requires completion of a jurisprudence examination. This open-book exam is based on the N.M. Architectural Act/Rules and Regulations and must be passed before an individual can become licensed.

The enforcement of the N.M. Architectural Act and NMBEA Regulations is often the “proving ground” for the development of statutory changes and new rules. As with most professions, the field of architecture has undergone vast technological changes and growth in recent years. With these changes comes the challenge to improve and create new provisions for public protections.

Initially, it is the purview of the NMBEA Rules and Regulations Committee to review new cases and determine an initial course of action through its Enforcement Subcommittee; analyze current rules and regulations; and recommend changes to the NM Architectural Act to the full board. All new rules and regulations must be presented to the public and approved by the Board in accordance with the New Mexico Open Meetings Act.

**Education**

Through a wide array of educational activities NMBEA works to offer information to those associated with the practice of architecture and the general public.

The main outlet of information is the NMBEA web site. This is located at [www.bea.state.nm.us](http://www.bea.state.nm.us). This website offers information and includes a complete copy of the N.M. Architectural Act/Rules and Regulations, as well as a handbook for consumers, a handbook for permitting officials, and several downloadable forms. There is also a roster of all current architectural registrations. Access to the roster enables the public to ascertain whether the person they are working with is registered to practice architecture in New Mexico. The website provides greater ease of access to the registrants, applicants, and most importantly, the public. The site offers educational opportunities for the general public and registrants through continuing education activities.

The Board has also created the Student Observer position. This is a non-voting, voluntary position, which allows a student at the University of New Mexico School of Architecture and Planning to participate in regularly scheduled Board meetings. Meetings with students and the Student Observer are usually coordinated and overseen by the Board’s architect/educator member. This fiscal year the position was vacant.
Registrants

NMBEA offers several services to its registrants. The Board notifies registrants of their responsibility to renew their license. Staff tracks license renewals and inputs new data into the Board’s database.

Registrants are required to complete 12 credits of health, safety and welfare continuing education each year of the two-year renewal cycle, for a total of 24 hours. This requirement must be met in order for registrants to renew their licensed. The purpose of continuing education is to ensure that practitioners are aware of current technological advances and changes in the practice of architecture.

Registrants are informed of changes to the N.M. Architectural Act/Rules via communication through mail and the website.

Another service available to registrants is the option of the continuing education courses offered free of charge on the NMBEA web site.

The Board is working on the convenience of an online payment gateway system for registrants to apply for and renewal their license electronically.

Finally, NMBEA staff responds to all inquiries from other jurisdictions whenever a New Mexico registrant is seeking reciprocity registration in another locale. Staff has a working relationship with NCARB in this regard as well.

Examination Candidates

Upon completing the requirements for registering for internship with NCARB, an individual is eligible to become a candidate for the Architectural Registration Examination (ARE). The candidate must successfully pass all six divisions of the ARE before becoming a registered architect.

NMBEA staff track a candidate’s exam progress, sending examination scores received from the test entity to candidates, usually through email. Staff also provides answers to exam candidates’ questions and address special needs or concerns candidates may have. NMBEA also works with representatives from NCARB and local chapters of the American Institute of Architects (AIA) to inform candidates of changes to the ARE and the Architectural Experience Program (AXP).

Interns

Interns represent an often-overlooked population within the architectural community. As individuals working for practicing architects, they must concentrate on acquiring all of the necessary credit units to fulfilling their Architectural Experience Program requirements also known as AXP. In addition, with the ability to take the ARE upon completion of the professional degree and signing up for the intern program, they may also be studying for the ARE and taking it while working.
NMBA seeks to provide current information to interns. NMBA staff will follow up on any concerns or questions that interns may have regarding AXP status and the rolling clock established by NCARB for the ARE. Basically, the rolling clock allows five years to complete all divisions of the ARE and begins once an exam candidate has taken their first exam.

**NMBA INFRASTRUCTURE**

**Board Members**

Working under the direction of Governor Martinez and her office of Boards and Commissions, NMBA endeavors to enlist its Board members from all areas of New Mexico. Board member positions are voluntary, with reimbursements for attending Board-related meetings in accordance with the New Mexico Per Diem Act. Board members are appointed to three-year terms by the Governor.

The Board consists of one public member, five architect members, one of which must be in the public sector and one architect/educator member who must be a full-time faculty member of the University of New Mexico School of Architecture and Planning.

**FY18 Board Members:**

Mr. Ray Vigil- Board Chair  
Ms. Tara Rothwell- Vice Chair  
Mr. Michael Bodelson- Secretary/ Treasurer  
Mr. Geoffrey Adams-Architect Member/ Educator  
Mr. Bob Calvani- Architect Member  
Mr. Jim Oschwald- Architect Member  
Mr. Mark Glenn- Public Member

**NMBA Committees**

The following are the standing committees for NMBA, whose members are appointed by the Chair. All committee activities are reported and discussed during regular Board meetings, with the exception of the necessity of certain committee activities being addressed at special meetings of the Board called for extraordinary circumstances. The committee memberships for FY 18 were:

**RULES AND REGULATIONS COMMITTEE**

Chair: Mark Glenn  
Michel Bodelson  
Jim Oschwald
ENFORCEMENT SUBCOMMITTEE

Chair: Michael Bodelson
    Mark Glenn
    Jim Oschwald

The Rules and Regulations Committee responsibilities include: reviewing the N.M. Architectural Act, Rules and Regulations and recommending changes and/or additions to the full Board; and responding to complaints involving the practice of architecture through its Enforcement Subcommittee.

EXAMINATION AND RECIPROCITY COMMITTEE

Chair: Geoffrey Adams
    Jim Oschwald
    Tara Rothwell

Responsibilities of the Examination and Reciprocity Committee include: review ARE applicants to determine if they meet the education and training requirements. If they do they are approved for licensure following passage of all the exams. The committee also reviews and recommends Board action on applications for reciprocity including the Broadly Experienced Architectural (BEA) applicants. This committee usually meets monthly.

FINANCE AND OPERATIONS COMMITTEE

Chair: Michael Bodelson
    Tara Rothwell
    Jim Oschwald

Committee responsibilities include: review all budget matters; review Board operations for efficiency, economy and security; make regular reports on these matters to the Board.

COMMITTEE FOR PLANNING AND DEVELOPMENT

Chair: Michael Bodelson
    Bob Calvani
    Mark Glenn

For the past two years, this committee has helped provide direction for the Board regarding its future information technology needs. It developed a new strategic plan that ultimately resulted in new internal performance measures for advancement toward greater online accessibility and online license verification for the public, registrants and applicants.
JOINT PRACTICE COMMITTEE

Chair: Bob Calvani
Michael Bodelson

The committee consists of NMBEA, the New Mexico Board of Licensure for Professional Engineers and Professional Surveyors, and the New Mexico Board of Landscape Architects. Board member responsibilities include: attending Joint Practice Committee meetings and reporting to the Board matters discussed at these meetings. The JPC also published a Handbook for New Mexico Building Officials and updates this handbook when necessary.

Board Staff

The NMBEA staff as of June 30, 2018:

Melarie Gonzales Executive Director/Chief Financial Officer
Jackie Holmes Compliance Officer/Investigator
Lorraine Otero Business Operations Specialist
Alicia Galvan Board Administrator

Ms. Gonzales oversees all aspects of the Board’s operations and finances. She serves as the Board’s liaison with the Joint Practices Committee, Finance and Operations Committee, and the Planning Committee. She is also on the National Professional Conduct Committee.

Ms. Holmes is the compliance officer/investigator for all complaints reported to the Board and works as staff liaison with several Board committees, including the Rules and Regulations Committee, the Enforcement Subcommittee, and the Exam and Reciprocity Committee. Ms. Holmes also oversees all reciprocity applicant activities.

Ms. Otero is the business operations specialist and is responsible for maintaining oversight for the needs of the Board’s office operations as well as the day-to-day financial operations of the Board, and coordinates all Board purchases with the Department of Finance and Administration and vendors.

Ms. Galvan was the Board administrator. She prepares materials for quarterly Board meetings, records and disseminates Board meeting minutes and provided research and assistance to the executive director.

All staff members provide service to the public.

NMBEA Legal Representation

NMBEA does not hire legal representation from the private sector. The Office of the Attorney General assigns attorneys to represent and advise the Board. Currently the
Assistant Attorney General acting as legal counsel for the Board is Joseph Dworak. Also, the Office of the Attorney General assigns a civil prosecutor to represent the Board during disciplinary actions against registrants and unlicensed individuals. The Board’s Prosecuting Attorney is Rebecca Parish.

**NMBEA Calendar for FY 18:**

- August 11, 2017 – NMBEA Board Meeting, Santa Fe, NM
- October 20, 2017 – NMBEA Board Meeting, Albuquerque, NM
- December 1, 2017 – NMBEA Board Meeting, Santa Fe, NM
- February 2, 2018 – NMBEA Board Meeting, Santa Fe, NM
- April 27, 2018 – NMBEA Board Meeting, Las Cruces, NM

**NMBEA – National Involvement in Architecture**

While New Mexico’s culture, geography and climate are unique, the state maintains a national commitment and involvement in the regulation of architectural practice. Being involved regionally and nationally benefits New Mexico’s citizens by having someone represent their needs and concerns, as well as ensuring that NMBEA is informed of current trends and policies affecting the practice of architecture.

NMBEA is a member board of the National Council of Architectural Registration Boards (NCARB). The primary purpose of NCARB is to create, and update, the Architectural Registration Examination and to be a clearinghouse for reciprocal registration for all U.S. jurisdictions. NCARB also sets the national standards for internship; and promulgates model law on a variety of regulatory issues. NMBEA participates in NCARB activities through its Board members and staff volunteering for NCARB committees and by attending the annual NCARB meeting.

NMBEA is also a member of the Western Conference of Architectural Registration Boards (WCARB). WCARB, representing twelve western states, is one of the largest of the six U.S. regions comprising NCARB. WCARB was the first regional organization of architectural registration boards in the United States and developed the first standardized architect examination. Here, again, Board members and staff participate in regional activities voluntarily and at the annual business meeting.

In Fiscal Year 2018, Board members and staff were involved in NCARB activities in the following manner:

- **Bob Calvani, Architect Member**, served as NCARB Board of Directors Treasurer. He was elected as NCARB’s Second Vice President at the 2018 NCARB Annual Business Meeting.
- **Jim Oschwald, Architect Member**, served as NCARB Board of Directors as Regional 6 Director.
• Tara Rothwell, Vice-Chair of Board and Architect Member served on NCARB’s ARE 5.0 Forms Assembly Subcommittee.
• Melarie Gonzales, Executive Director, served on NCARB’s Professional Conduct Committee.

NMBEA staff participates in other national organizations affiliated with the regulation of professions. For instance, whenever possible the compliance officer/investigator attends trainings sponsored by the Federation of Association of Regulatory Board (FARB). Attending the trainings affords staff the opportunity to network with other regulatory professionals.

Operational Planning for Fiscal Year 2018

The items listed below are an overview of the Board’s objectives and updates for the past fiscal year. Several items are ongoing and will likely remain so in perpetuity. Other items are projects of a fixed attainability, and should be easily identifiable.

• The Board continues to work towards providing an online payment option to its registrants. Meetings have been held with the Department of Information Technology, the State Treasurer’s Office and Wells Fargo Bank.
• The Board held a Public Rule Hearing on April 27, 2018 in Las Cruces, NM.
  o 16.30.3.2 NMAC was amended to include language for the board to appoint a student observer.
  o 16.30.4 NMAC was amended to correct a reference in the rule, and
  o 16030.5 NMAC was amended to clarify section 61-15-5 NMSA 1978 of the Architectural Act and to add a complaint reporting procedure to be followed at board meetings.
• The Board continues to increase communication with the University of New Mexico School of Architecture and Planning and UNM graduate students and interns working in New Mexico.
• The Board continues to increase communication with the National Council of Architectural Registration Boards (NCARB) by attending NCARB meetings and functions to ensure that New Mexico is visible nationally.
• Board members and the Executive Director attended the American Institute of Architects New Mexico Young Architects Forum to congratulate newly licensed architects.
• Continues to improve communication with its registrants, applicants, interns, students, members of the design and construction community, as well as the public.
• Continues to improve enforcement efforts for violations of the Architectural Act.
• Meet with State and City building officials to discuss questions and concerns relating to the practice of architecture in New Mexico.
• The Board continues to provide notifications/ updates to the Public and registrants via the Board’s website.

*This figure represents the number of incidences investigated and referred to the Board’s Enforcement Subcommittee. Twelve incidences resulted in formal complaints. The Enforcement Subcommittee determined that 24 of the incidences reported did not violate the New Mexico Architectural Act.

*Thirty-Six potential disciplinary actions were investigated by the board.

- Three cases of practice without a license.
- Two cases of use of a title without a license.
- One cases of false information on an application.
- Three cases of plan-stamping.
- Two case of misconduct.
- One case of failure to report a prior felony.
12 Cases were formal complaints with two resulting in disciplinary action; five cases are pending; and five cases were closed with no disciplinary action.

24 potential disciplinary actions were determined to be in compliance with the New Mexico Architectural Act.

The Board has evolved and accomplished many of the goals that were formulated in prior fiscal years. In FY 17 the Board changed its physical location and moved into a state owned building, thereby saving thousands of dollars on rental fees. Immediately following the Board office move, the Board held a public rule hearing; amending some of the rules and regulations. One of the rule amendments specifically created a temporary new pathway to licensure in New Mexico; the Broadly Experienced Architect Pathway.

Another rule amendment revised the renewal procedure so that beginning in December 2017, instead of all registrants renewing their licenses every two years, those whose birth year ends in an even number will renew their registrations for one year; expiring in December 2018, and pay half of the two year registration fee. After the initial one year license renewal, the even numbered birth year registrants will renew for two years. Registrants whose birth year ends in an odd numbered year will renew their licenses for two years. This positively affected the Board’s revenue in FY18 because licenses, depending on their birth years, are renewing each year instead all registrants renewing every two years. The Board continues to work towards providing an online payment option to its registrants.

Budget and public awareness remain priorities. Cost savings on the Board’s rent were finalized in FY 17. “Public awareness” must be keyed to the Board’s primary mission, which is to protect the health, safety and welfare of the public. At least one of the aspects of protection must be built on a greater public awareness that architectural services are only provided by those who are licensed as architects in New Mexico.
